## One Family, One Goal

1 FAMILY BUSINESS.  
4 BRANDS.  
100 YEARS OF EXPERIENCE.  
650 KITCHENS A DAY.  
1,000 MEMBERS OF STAFF.

Founded in 1917 and now in its third generation, our family business has evolved into a company group that's at home on the international stage.

Our members of staff are the backbone of our success which is based on a clear brand strategy. Machines from BAUMANN and burger cover the entire market spectrum from entry-level model to premium segment. BUKU is renowned for top-quality electrical appliances, with the bucca brand being synonymous with individually tailored bathroom furniture.

**Bouffonnet, German Quality**

The "MADE IN GERMANY" hallmark of quality extends far beyond our roots and our manufacturing base. German Quality is the jargon and everyday matter in all areas of production within our company group. State-of-the-art mechanical production and high environmental standards are coupled with skilled craftsmanship to create a highly automated work process. After all, day after day every kitchen to leave our factories is a bespoke product, the quality of which we guarantee.

### Unique & Clean Design

It looks exactly like real glass. The 45° bevelled and seamless edges of the Glasgow front guarantee a glass-fronted island in terms of functionality, the smart material is a step ahead. It is an ultra-thin aluminium and 100 per cent lighter than real glass. The elegant appearance

with soft touch and ambience lighting has no margin of doubt with their high level of scratch resistance is completely non-negotiable. The anti-fingerprint effect saves time on cleaning. Durable and 100% adjustable, our lighting systems create an atmosphere of well-being in our

line of all. Start here with the Lightbridge, the Matrix recessed LED light vertically integrated into the cabinet and our built-in cabinet LED or with the LED & DIMMABLE strip which allows the light back up and down - lighting creates design before and afterwards.

### BRILLIANTLY PRESENTED

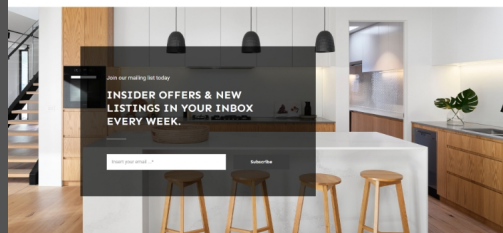

Durable and 100% adjustable, our lighting systems create an atmosphere of well-being in our line of all. Start here with the Lightbridge, the Matrix recessed LED light vertically integrated into the cabinet and our built-in cabinet LED or with the LED & DIMMABLE strip which allows the light back up and down - lighting creates design before and afterwards.

The Lightbridge provides light, acts as a splash guard and creates space for everyday items.
